

# NEWS LETTER

## Director's Message

## Greetings from A.V. Hospital!

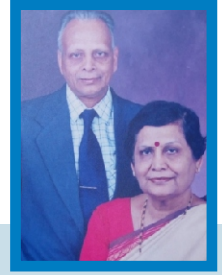

**Dr. M. Ramesh**

It gives me great pleasure to come out with the second newsletter of this year. In the last quarter, we have contributed a lot in terms of public education, doctors education and have been invited to perform drills to doctors.

Our achievement has been published in the

news paper Vishwavani about multiple surgeries that we conducted. We have been pioneers in performing multiple surgeries conducted simultaneously by laparoscopic surgery. For the last 20 years we have done more than 500 such surgeries and for the first time we could do 4 major operations on a patient on single instance.

We were also invited by Doordarshan Chandana TV to demonstrate Yoga for

**Dr. R.S.K Murthy & Dr. M.Arundhathi**  
**FOUNDERS**

pregnant ladies in a special session that was telecasted on the International Yoga Day.

It is heartening to know that BLDE Medical University Bijapur has selected me as the mentor for the department of surgery for their university. We conducted a live workshop and delivered guest lectures there.

Our specialists have been invited faculty in the prestigious Cutting edge 2019 conference.

We successfully completed 2 of our popular courses of skills training through BEST Institute & Research Centre, one of Certificate course lasting for 15 days and another an Advanced Laparoscopic Training for Hernia Surgery which lasted for 3 days.

Our faculty was also invited by Garbhagudi fertility centre.

We also have established a Free Camp in Uma Maheshwari Temple in Banashankari which will be a continuing event every month

## A Special & Unique Surgery

Dr. M. Ramesh, Dr. Ganesh Shenoy & team at A.V. Hospital performed a unique surgery for a patient through 6 tiny holes and 4 different types of surgeries were accomplished on the same patient successfully.

This was featured in the “Vishwavani” News paper being the first of its kind.

The surgeries performed were laparoscopic bilateral mesh repair(both left & right ) Inguinal Hernia, Umbilical hernia and Laparoscopic Cholecystectomy. All this was done through two 1cm incisions and four ½ cm incisions. The patient was discharged the next day after surgery.

## Our contribution for Public Education

Obesity is a wide spread lifestyle disease that ails people in today's society. Dr.M.Ramesh spoke about this disease and gave viewers important tips, described the problems arising by this disease and provided solutions to counter it in a show on Chandana TV on 24/05/19

**Topic: Bariatric Surgery for Obesity**

This can be viewed at <https://youtu.be/5DpuyM96h-c>

India is known to be the diabetes capital of the world. So far, people manage diabetes through medication & insulin shots. Dr.M.Ramesh spoke about a new surgical method called Metabolic Surgery, where a patient is able to stop his diabetic medication and insulin immediately post surgery. He emphasised that apart from stopping all medicines for diabetes, one can live without fear of developing complications that affect the eyes, heart, kidney, nerves and other organs. This was aired live on Chandana TV on 17/05/19

**Topic: Metabolic Surgery for Remission of Type2 Diabetes.**

This can be viewed at <https://youtu.be/eUxQSR6UKYE>

Fibroids are growths on the uterus which can cause several problems. Unfortunately, many women are unaware if they have fibroids. Dr.Saraswathi Ramesh spoke about the fallacies it can cause in Chandana TV on 16/05/19 & again on 21/05/19 on Ayush TV. She gave information and provided solutions for people suffering from Fibroids.

**Topic: Fibroids on 16/05/19 on Chandana TV**

This can be viewed at <https://youtu.be/4zyJ8-aSa6M>

**Topic: Fibroids on 21/05/19 on Ayush TV**

This can be viewed at <https://youtu.be/QmWeyfVvhHs>

Many women suffer from problems due to menstruation. Menstruation is a natural process which is controlled by hormones like estrogen and progesterone. Dr. Saraswathi Ramesh spoke about menstruation, problems associated and solutions for these problems on Chandana TV on 13/06/19

**Topic: Menstrual Problems.** This can be viewed at <https://youtu.be/puvmrwkpbLs>

Gallbladder stones are small particles that form the bile cholesterol and bilirubin in the gallbladder. Ayush TV interviewed Dr. M.Ramesh on the topic of gall bladder stones, treatment and surgeries. He also cleared some myths pertaining the gall bladder.

**Topic : Gall Bladder Stones on 25/06/19**

## Cutting Edge 2019

A national conference was organized at Hotel ITC Gardenia, Bangalore on 11th 12th May 2019. Dr. Saraswathi Ramesh and Dr. Harinath K S were invited as distinguished faculty for the Panel discussion on 'Hysteroscopy in the management of Infertility What is the evidence?'. They elaborated on the latest evidence based medicine for better pregnancy outcomes using hysteroscopy in the management of infertile women.

## CME at BM Patil Medical College, Bijapur

We are happy to inform that Dr. M Ramesh has been appointed as the Mentor for the the department of surgery to improve the standards of surgical education for the BLDE Medical University Bijapur. He is pleased to impart his knowledge for the young budding surgeons and guide them in the Laparoscopic surgeries. As part of this mentor ship, a CME & workshop was organised by Dept. of General Surgery and Gynecology at BM Patil Medical college,

Bijapur. Live demonstration of surgeries were performed on 21st April 2019. Many surgeries like Ventral hernia, Laparoscopic IPOM Plus repair for ventral hernia. Lap Nissen's Fundoplication for Hiatus Hernia, Total Laparoscopic Hysterectomy, Myomectomy for Fibroid uterus was demonstrated by Dr.Ramesh & Dr Harinath

## BSOG Drill

BSOG had organized a CME for the postgraduate students in Obs & Gynec at API Bhavan, Bangalore on 16th June 2019. Under the leadership of Dr.Saraswathi Ramesh, laparoscopy drill was conducted to impart the basics of laparoscopy with video presentation and instruments demonstration. Students had the opportunity to get 'hands on training' on pelvitrainer to learn hand to eye co-ordination.

## Laparoscopic Hernia Training Course 2019

A.V. Hospital & BEST Institute were the first to perform a single theme conference and workshop on Hernia in the country 22 years ago.

The 2nd Laparoscopic Hernia Training Course of this year was conducted from June 21-23rd 2019. AV Hospital is recognized as Center of Excellence in Hernia Surgery by Hernia Society of India and Asia Pacific Hernia Society. This training course of 3 days was endorsed by Hernia Society of India.

This training course included live operative demonstration, Endotrainer sessions on different modules on BEST Endotainers and Didactic sessions. Internationally renowned faculties were part of the Didactic sessions. Teleconferencing technology was used for

this purpose.

The faculty for the course were

Dr. Ajay Kriplani

Dr. Anil Sharma

Dr. Ramesh Agarwalla

Dr. Sandeep Dave

Dr. Deepraj Bhandarkar

Dr. Ramesh Punjani

Dr. Manish Baijal

Dr. Sarfaraz Baig

Dr. T. Sivakumar

Ten surgeons from across the country were trained during this course.

## Free Camp in Uma Maheshwari Temple

Sri Uma Maheshwari Temple, Banashankari, had organized free health checkup with free consultation by Dr.Saraswathi Ramesh on every Thursday. Free consultation, treatment & counselling is provided to the poor and needy sections of the community.

## Talk on Doctor's Day at RV Public School

Dr. Ganesh Shenoy was invited as Chief guest during Doctor's day celebration on 1st July at R. V. Public School, Lalbhag West gate. He spoke about "His journey as a doctor and hygiene tips for children"

## International Yoga Day

On the occasion of International Yoga Day on 21/06/19 Dr. Saraswathi Ramesh went live on Chandana TV demonstrating yoga practice for pregnant women. She encourages her patients to learn yoga and practice it regularly for the prevention & treatment of various ailments. She conducts Yoga training batches at AV Hospital on Saturdays. She also conducts 'Yoga training for pregnant women' to improve health of pregnant lady & increase the chance of natural birth and also to be able to bear the pains of labour. She shared her experience of the last 20 years of Yoga Courses for pregnant ladies.

This can be viewed at [https://youtu.be/N\\_1uR1ApNBs](https://youtu.be/N_1uR1ApNBs)

## Talk at Fortis

Dr. M Ramesh & Dr. Ganesh Shenoy from AV Hospital, delivered a talk on **Recent trends that increases results of Bariatric Surgery** on 8th June 2019. Organized by Fortis Hospital, in association with IMA-CHS, Bangalore. This was attended by 80 doctors and was held at Green Path Forgotten Food Restaurant

## Guest Speaker at Garbhagudi Fertility Centre

Dr. Harinath K S, was invited as a guest speaker on 16/05/19 to deliver a lecture to trainees from various parts of the state on '**Role of Laparoscopy in the era of ART**'. He presented the latest evidences available today for management of infertile couple with the help of laparoscopy. Various surgical videos were demonstrated & discussed with the training doctors about the principles of surgery for better fertility outcomes. He shared the rich experience of 27 years of Laparoscopy in A.V. Hospital.

## Certificate Course for Laparoscopic Training Course

BEST Institute's popular certificate course for Laparoscopic training conducted from 1st to 15th May 2019 was a grand success. This course was started almost 2 decades ago by Dr.M.Ramesh and is very successful in training young surgeons throughout the world.

This batch of training was attended by 8 Gynecologists and 2 Surgeons from various parts of India. All the trainees were given hands on experience in assisting and performing surgical procedures from basic diagnostic to operative procedures. They witnessed a variety of cases like Diagnostic Hysteroscopy, Hysteroscopic Myomectomy, Total Laparoscopic Hysterectomy, Lap Myomectomy, Lap Ovarian Cystectomy, Lap Ectopic surgery, Lap Cholecystectomy, TEP and TAPP for Inguinal hernia, Lap IPOM Plus for Ventral hernia, Adhesiolysis, Lap orchidopexy for Undescended testis, Lap Appendectomy. A total of 54 cases were demonstrated during training.

Trainees had a hands on training around 30 hours in the skills lab and performed various tasks on the Institute developed Pelvitrainer. Endoscopic suturing sessions were also included. Weekly assessment of improvement in laparoscopy skills were assessed by pelvitrainer tests.

Trainees interacted in didactic sessions from various senior and highly experienced doctors from top institutes of Bangalore. It was a wonderful opportunity for these doctors to have got the opportunity to get trained from an expert faculty led by Dr. M Ramesh and Dr. Saraswathi Ramesh and learn the skills of laparoscopy and hysteroscopy from the pioneers itself.

On the last day, quiz was conducted and certificates were distributed. Trainees opined that they had a great learning experience and confident to establish laparoscopy in their hospitals.

*Standing from left to right : Dr. Aparna Kaulavkar from Kolhapur, Dr. Poornima from Chennai, Dr. Shanti G, Chennai Dr. Sindu from Bangalore, Dr. Smitha Prasad from Chattisgarh . Sitting from left to right: Dr Parvathi Bai from Gadinglagaj, Dr. Harinath KS (Consultant Lap Gynac Surgeon, AVH, Bangalore), Dr. Vasuda from Andra Pradesh, Dr. Kavyashree from Bangalore, Dr. Saraswathi Ramesh (Director, Senior Laparoscopic surgeon & Gynecologist, AVH, Bangalore), Dr. Rath Priya from Bangalore, Dr. Bharathi Rajanna ( Consultant Manipal Fertility Centre), Dr. Rashmi from Mysore*
